

DVD Checkout Policy for Minors:

By signing the library application card for a minor, the parent or guardian has given permission to check out DVDs regardless of rating. It is the policy of the Sanger Public Library that parents or guardians, not library staff, are responsible for monitoring and approving the selection of materials made by their children.

Note: The parental/guardian permissions of minors who received library cards under the previous policy, which specified movie ratings by age group, will remain in effect until the parent or guardian agrees to the change (in writing) under the updated policy which does not include rating restrictions.
