BUILDING THERMAL ENVELOPE LEAKAGE TESTING VERIFICATION

Building Thermal Envelope Leakage Testing (C402.5.1): ____ **ACH50**

I certify that I have conducted an air leakage test and it has passed the requirements of the 2018 International Energy Conservation Code. I further state that I am certified to perform air infiltration testing by national or state organizations as approved by the Building Official. I certify I am an independent third-party entity, and have not installed the HVAC system; nor am I employed or have any financial interest in the company that constructs the structure.

Print Name: _____ Certification Number: _____

Tester Signature: _____ Date: _____

COMPLIANCE STATEMENT

This statement concedes that all plan reviews, inspections, and testing of the above project is in compliance with the residential provisions of the 2021 IECC, as amended, for the selected compliance approach:
